Bilingual (French/English) Full Stack Developer with experience in team management, project management, and staff training. Passionate about streamlining processes and increasing efficiency within teams. Enjoys the detective work of finding the problem in a mountain of code. One who embraces challenging environments and complex problem solving.

Projects

2018-04	**AWS**
	Certificate
	Working towards the obtention of an Amazon AWS Associate certification and the Professional certification
2018-03 - present	**ASPL20**
	(Ruby on Rails, JavaScript, CSS, Google Map API)
	I am working on a website for a French small swimming and gymnastic sports club. The person in charge of the daily maintenance of the website is not technical so I have to be realy thinkfull on how she can update locations of pools, gymnasiums, classes and transportations without a single line of code.
2017-12 - 2017-12	**Christopher Tritt**
	(HTML 5, CSS, Javascript)
	Helped a friend create a portfolio for a open position in a gaming production company. It is a one page portfolio with JQuery flexslider and modals for the art projects.

Experience
